Overdraft policy

- To help you avoid fees, we won't authorize ATM withdrawals or everyday debit card purchases when you don't have enough money in your account at the time of the transaction.
- When we determine you don't have enough money in your account to cover other items such as checks or scheduled payments, we'll either authorize and pay the item and overdraw your account (an overdraft item), or decline or return the item unpaid (an NSF: returned item). When this happens, you'll be charged a fee. See details below.
- We offer two overdraft setting options for how you want us to process your other transactions.

Overdraft settings and fees

Option 1: Standard - Choose this setting if you want checks or scheduled payments to be completed, even though you'll pay a fee. These transactions may be approved and cause an overdraft.

Option 2: Decline-All - Choose this setting if you want us to decline or return transactions if you don't have enough money in your account at the time of the transaction. Checks or scheduled payments will be returned unpaid if you don't have enough money in your account and you will be charged an NSF: Returned Item Fee. Recurring debit card payments may be authorized when funds are available but cause an overdraft when they post later which may result in an Overdraft Item Fee.

Overdraft Item Fee	\$35.00 per overdraft	We'll charge this fee for each item that we authorize and pay, including recurring debit card payments.	No more than 4 Overdraft or Returned Item fees are charged per day.
NSF: Returned Item Fee	\$35.00 per declined/returned transaction	We'll charge this fee for each item that we decline or return unpaid. One-time or recurring declined debit card payments aren't charged this fee.	
Emergency cash at the ATM	\$35.00 per overdraft transaction	You may be able to authorize an overdraft and access cash at a Bank of America ATM in either setting. You'll pay a \$35 Overdraft Item Fee for the ATM withdrawal unless there are funds available in your account to cover your overdraft by the end of the business day.	
Overdraft Protection Transfer Fee ¹	\$12.00 per transfer	With Overdraft Protection, if you're about to overdraw your account, we'll automatically transfer available funds from your linked savings or second eligible checking account. Only 1 transfer fee charged per day that a transfer is made.	

Please see the Personal Schedule of Fees and Deposit Agreement for your account terms.

1. Overdraft Protection is also available from your Bank of America credit card. Overdraft Protection transfers from your credit card are Bank Cash Advances. They are subject to overdraft protection cash advance fees and will accrue interest at the Bank Cash Advance APR. Please refer to your Credit Card Agreement for additional details.

When your deposits are available

- **Cash, direct deposits, wire transfers:** On the day we receive them.
- **Checks:** Usually the next business day, if deposited before the financial center or ATM cutoff time.
- **Mobile Check Deposit:** Usually the next business day if deposited by applicable cutoff times (please refer to "Help", "Browse More Topics", then "Mobile Check Deposit" in the Mobile Banking app for additional details and terms and conditions). Dollar limits apply to this service, vary by account and are communicated during the deposit process.
- **If we place a hold on your deposit,** we'll let you know the hold reason and when your funds will be available. This is typically provided at the time of deposit but may also be mailed later. Deposits greater than \$5,000 and checks deposited within the first 30 days of account opening may be held longer.

How we post transactions

The way we post transactions impacts your account balance. If there's not enough available money in your account to cover all of your transactions, the posting order can impact the number of overdraft fees you incur. At the end of each business day, we'll group transactions received that day into categories before posting them. Below are the most common categories, and common transaction types in each, in the order that they generally post to your account.

- **Deposits:** Added from highest to lowest dollar amount.
- **Many debit transactions:** Subtracted based on the date and time you made them (if the system knows the date and time of the transaction). These include one-time and recurring debit card transactions, one-time transfers, ATM withdrawals, and checks cashed with our tellers.*
- **Other checks you wrote:** Subtracted in check number order.*
- **Most other electronic payments and preauthorized transfers:** Subtracted from highest to lowest dollar amount. These include scheduled transfers, online bill payments and preauthorized payments that use your account number.
- **Most fees:** Subtracted from highest to lowest dollar amounts.

* If our system doesn't receive date and time information, or can't detect the check number, remaining transactions in these categories are posted from highest to lowest dollar amount.
